

# 8' OLIVE TREE CGH QUICK REFERENCE GUIDE

Unpack and carefully remove the tree from its packaging, ensuring it does not damage the branches during the process and stand planter upright to begin assembly

## UNBOXING

As you assemble your tree, carefully match the numbers on the branches correlating to the numbers on the trunk, making sure the arrows point to each other. This will ensure the branches are facing in the right direction

## ASSEMBLE

While gently supporting a leaf with one hand where it meets the branch, carefully use your other hand to arch the leaf to achieve a natural look. Continue this process for all leaves

## STYLING

### Start with the Shape

Separate the branches and straighten the center for a natural form

### Shape the Bottom

Extend bottom branches, shaping stems and leaves individually

### Work from the Bottom Up

Bend branches, stems, and leaves to mimic real growth

### Style the Top

Decide on the front, then shape the top branches accordingly. Step back periodically to assess balance and symmetry. Don't be afraid to experiment with your faux tree until you are satisfied.

## TIPS FOR STYLING A FAUX TREE REALISTICALLY

Choose the best location for your statement piece and watch at how amazed people are when they find out its not real!

## SIT BACK, RELAX, & ENJOY YOUR LIFELIKE STATEMENT PIECE!

For Larger Trees, it's Recommended to have At Least 2-Foot of Clearance from the Top Branch to the Ceiling

When Needed, Gently Dust Surfaces with a Soft, Clean Cloth

Minimize Exposure to Direct Sunlight

For Indoor-Use Only

Requires No Watering, Sunlight, Pruning, or Maintenance Expense
