

MUSTANG
DOORS

ALUMINIUM INTERNAL HERITAGE DOORS

Our aluminium heritage industrial style internal doors and room dividers, feature a contemporary black, powder-coated finish and two slim horizontal bars. Every door has clear, safety laminated glass, to allow plenty of natural light to flow within the rooms of your home.

Mustang aluminium doors are custom-made to perfectly fit your home. A complete set of Art Deco doors can be crafted up to 1000mm wide and 2100mm high, while double doors can be made up to 2000mm wide.

Mustang internal doors are ideal for both residential and light commercial properties.

Contemporary internal heritage double doors

Mustang contemporary doors are made to bespoke sizes and designs and can incorporate horizontal and vertical slim aluminium glazing bars to create sharp, angular designs, resulting in a style which is balanced and mirrored on both sides of the door.

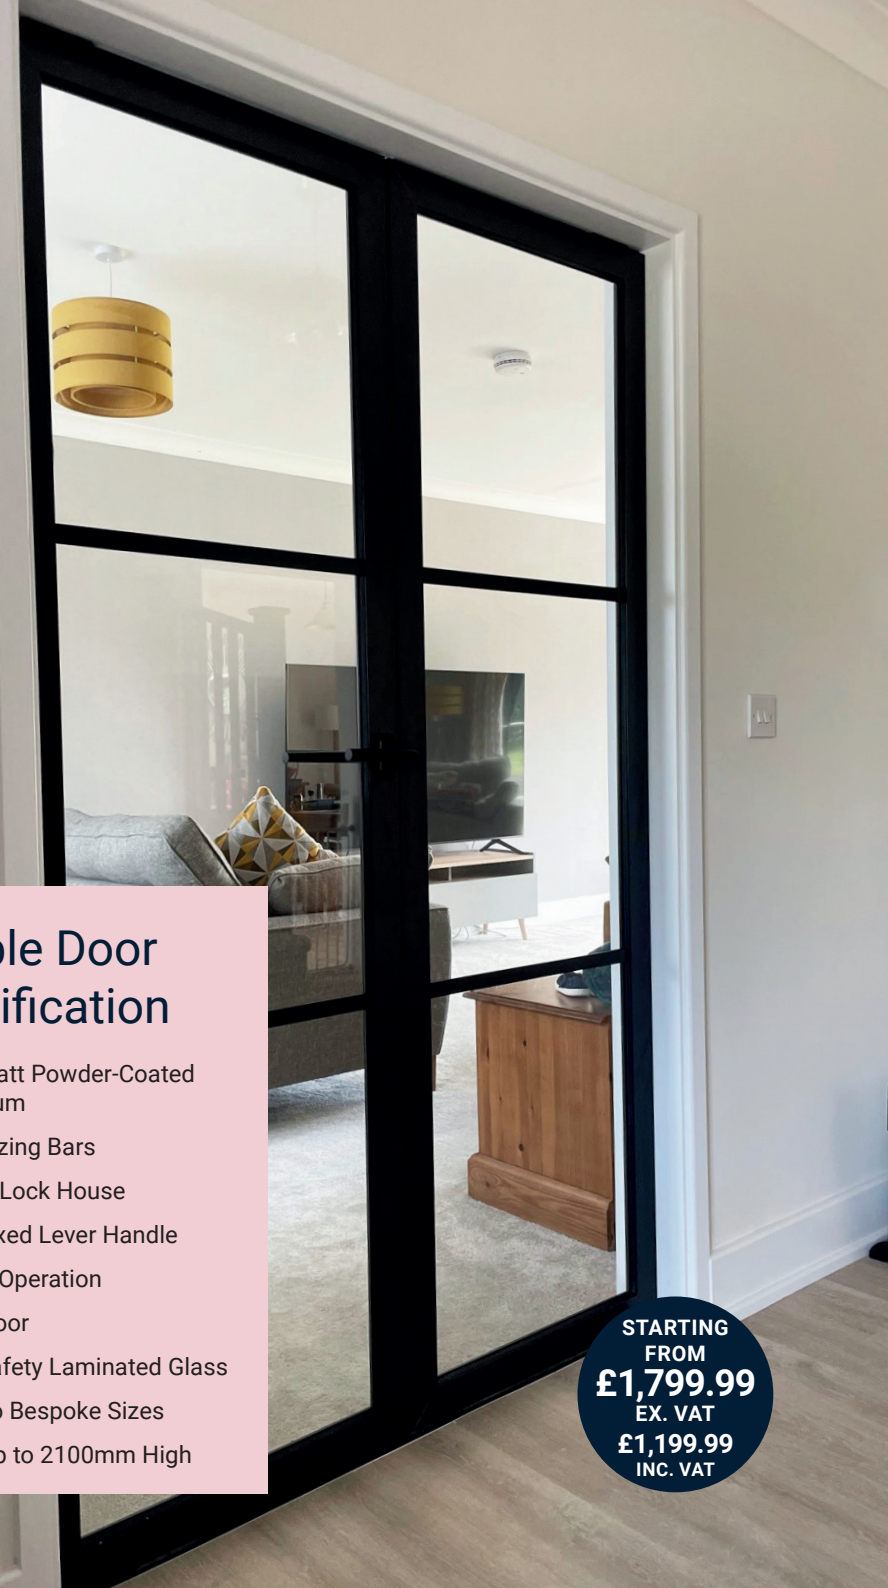

Fixed aluminium screens can be made to sit alongside a single or double door or they can be supplied as a standalone item to create a complete glass wall. Our fixed screens are suitable for residential and commercial properties and are often specified to create a glass partition in offices.

Double Door Specification

- Black Matt Powder-Coated Aluminium
- Two Glazing Bars
- Dummy Lock House
- Black Fixed Lever Handle
- Magnet Operation
- Flush Floor
- Clear, Safety Laminated Glass
- Made To Bespoke Sizes
- Doors up to 2100mm High

Steel Look Internal Sliding Doors and Pivot Doors

Our oversized pivot doors for inside the home can be made in impressive sizes up to 2200mm wide.

Rather than being hinged and attached to the door frame, a pivot door operates by means of a pivot at the top and bottom of the door, creating a fabulous, minimalist aesthetic within the home.

Dimensions

Single pivot door up to 2200mm wide x 2600mm high

Double pivot doors up to 4400mm wide x 2600mm high

Our sliding doors operate on an aluminium track, positioned at the top of the doors. This ensures that the floor level remains flush for ease of access between rooms. Rather than opening into a room, you can choose whether your sliding doors will gently glide parallel to the internal wall, where they will sit neatly whilst open, or by creating a purpose-built cavity, the doors give the illusion of disappearing, to create a 'pocket sliding door' system.

- Single Sliding Door Up To 1200mm wide x 2600mm high
- Double Sliding Doors Up To 2400mm wide x 2600mm high
- Frame Depth Front To Back 30mm
- Soft-Close Option
