#### **PRODUCT NOTICE – HOTPOINT / INDESIT DRYERS**

Whirlpool, the manufacturer of Hotpoint / Indesit products has made the following statement regarding tumble dryers sold prior to 30th Sept 2015.

“Safety is our number one priority and we remain committed to resolving any affected tumble dryers that have not yet been modified. To this end, we are in ongoing discussions with the Office for Product Safety and Standards (OPSS) to agree additional measures we have proposed to reach consumers who have not yet engaged with this safety programme. We have cooperated with OPSS throughout its recent review of the programme and welcome its findings that consumers whose tumble dryers have been modified can continue to use them safely.

The crucial message to anyone who still owns an affected dryer and has not already had it modified by Whirlpool is to contact us immediately on 0800 151 0905, or visit <https://safety.hotpoint.eu/>, or <https://safety.indesit.eu/>. In the meantime, anyone with an affected dryer that has not been modified should unplug it and not use it until the modification has been completed.”

### **WHAT YOU NEED TO DO**

To find out whether your dryer may be affected and to register your product for the free, in-home modification:

- Visit one of these websites:

**<http://safety.indesit.eu>**

**<http://safety.hotpoint.eu>**

**<http://safety-swan.eu>**

*Creda and Proline customers should visit <http://safety.hotpoint.eu>*

- Or please contact our freephone hotline at **0800 151 0905**
