### OVERVIEW

**Keep Your Drinks Cool and Your Display Sleek: The Contender Double Sliding Door Bottle Cooler**

Introducing the Contender Double Sliding Door Bottle Cooler — a stylish, high-performance solution designed for busy bars, cafés, and restaurants. With a 220L capacity, it provides ample storage for bottled and canned drinks while maintaining a clean, professional look. The lockable sliding glass doors offer secure, easy access to your stock, and the energy-efficient LED lighting with external switch enhances visibility to create an attractive display that draws attention.

A fan-assisted cooling system ensures consistent airflow and stable temperatures between +2°C and +9°C, while the digital controller allows precise adjustment to suit your needs. Four adjustable shelves and height-adjustable feet provide flexibility and stability in any setting. Operating on eco-friendly R600a refrigerant with a C energy rating, it delivers dependable, energy-efficient performance. Complete with a fitted 13A plug, CE certification, and backed by a one-year parts-only warranty with lifetime technical support, the Contender Double Sliding Door Bottle Cooler combines reliability, efficiency, and style in one sleek unit.
