

25 metres spectator distance

What does it do ?

No of Shots **90**

Height approx **30 m**

Duration approx **55 sec**

A rapid start of overlapping gold bursts, silver fish and red and green comet bursts to a fanned salvo of silver palms culminating in a sky filling series of snowflake bursts to a finale of rapid fan fired shell bursts and champagne fizz.

What does it do ?

No of Shots **54**

Height approx **30 m**

Duration approx **50 sec**

Spinning silver comets rise and burst alternately into coloured starbursts and glittering chrysanthemum, dazzling brocade comets rise and burst into a mass of red stars and beautiful brocade shellbursts.

What does it do ?

No of Shots **50**

Height approx **30 m**

Duration approx **45 sec**

Red, green and blue comets rise and burst into brocade shellbursts with red, green and blue stars. Red, green and blue comets rise with silver glitter and multi-coloured shellbursts, then blue tailed mines with chrysanthemum spreads create the finale.

What does it do ?

No of Shots **92**

Height approx **30 m**

Duration approx **45 sec**

A sequence of red, green and glitter mine eruptions is followed by multi-coloured comets with brocade bursts & coloured stars. A further sequence of red, green, brocade and crackle mines is followed by brocade shellbursts to a finale of red, blue and brocade bursts.

FOR A GREAT SHOW HERE IS A SUGGESTED FIRING ORDER

- FIRST : Shuttle - 92 shot cake to start the show.
- SECOND : Launch - 50 shot cake, a brilliant follow up.
- THIRD : Orbit - 54 shot Single Ignition with fanned effects.
- FINALE : Gravity - 90 shot Single Ignition.
