BAMBOO SUP BOARD CONSTRUCTION AND INNOVATION

CHANNELS

The integrated channels in the Jobe Bamboo collection is an innovation inspired by our wakeboard collection. It increases stability on the water and it gives the SUP more speed!

EPOXY COATING

This year, we are introducing a new paint technique on the rail of our SUPs with EPOXY. As a result the paint is not a layer on top of the SUP, but the colors are intergrated into the EPOXY. Creating a metallic finish for a clean look which is durable as well!

CLICK & GO

Our bamboo beauties have unique click fins to make sure you are on the water in no-time. No tools and never worrying about losing your fin screw again.
