- Lid Lock Included
- 13 Amp Plug Fitted
- Body Frame: Grey Aluminium
- Energy Rating: D
- Noise Level: 44.7 dB
- Energy Consumption: 2.92 kWh/24hr

OVERVIEW

Contender 482L Ice Cream Display Freezer – High Capacity, High Impact

The Contender 482 Litre Ice Cream Machine is a high-performance commercial freezer designed to meet the demands of busy ice cream parlours, cafés, and retail spaces. With a generous 482L gross capacity, it provides ample frozen storage while maintaining excellent product presentation through its curved glass sliding lids and angled display cabinet, helping attract customer attention and boost impulse sales.

Built with a robust aluminium frame and sleek white exterior, the unit combines durability with a clean, professional appearance. An eco-friendly refrigerant supports sustainable operation without compromising performance, while four spacious internal baskets keep stock organised and secure with a built-in locking system.

Precision temperature control maintains consistent freezing between -15°C and -23°C using a mechanical thermostat and analogue thermometer, ensuring frozen goods stay in optimal condition at all times. Practical features including an easy-clean aluminium-lined interior, smooth-rolling 360° castors for mobility, simple plug-in installation, and a 2-year parts warranty make the Contender Ice Cream Machine a reliable, efficient, and stylish solution for high-volume frozen storage.
