OVERVIEW

The **Contender 600L single door stainless steel fridge** is built to deliver reliable, high-performance refrigeration in busy commercial kitchens. Ideal for restaurants, cafés, delis, supermarkets, and forecourts, it combines durability, style, and efficiency, making it a dependable choice for professional catering environments.

Constructed from premium-grade stainless steel inside and out, the unit outperforms alternatives with aluminium interiors and features trusted components including a Carel digital controller and a Zel compressor for precise temperature control and long-term reliability. Practical features include a top-mounted compressor for easy cleaning and maintenance, a ventilated cooling system for consistent internal temperatures, fitted castors for easy positioning, and a locking door for added security.
