OVERVIEW

The Triple Sliding Door Bottle Cooler is a sleek, high-capacity beverage storage solution designed for busy commercial environments where space and presentation matter. Finished in durable black stainless steel with an easy-clean hammered aluminium interior, it delivers a professional appearance while providing an attractive backdrop for showcasing drinks. With a generous 320L capacity, it comfortably accommodates a wide range of beverages, while the triple lockable sliding doors allow smooth access without encroaching on service space.

Fan-assisted cooling ensures even air circulation throughout the cabinet, maintaining consistent temperatures between +2°C and +9°C, with a fully adjustable digital controller for precise temperature control. Energy-efficient LED interior lighting enhances product visibility, drawing customer attention, while adjustable internal shelves and levelling feet offer flexible organisation and easy installation. Using eco-friendly R600a refrigerant and backed by a one-year parts warranty with lifetime technical support, this bottle cooler delivers reliable performance, efficiency, and polished presentation for bars, cafés, and hospitality venues.
