OVERVIEW

Max Capacity. Maximum Confidence.

The Contender 600L Stainless Steel Upright Refrigerator takes everything tough about commercial refrigeration and scales it up. With a massive 630L capacity, durable stainless steel exterior, and a ventilated cooling system, this upright refrigerator is designed to meet the demands of larger kitchens without breaking a sweat.

From prep rooms to busy service lines, the Contender 600L Stainless Steel Upright Refrigerator delivers constant cold, rock-solid reliability, and serious efficiency—day in, day out. Built with long-life components and commercial practicality in mind, it's a true performer for those who don't back down.

Due to continuous ongoing improvements, the item may differ slightly from the image shown.
